

FOX-WOLF BASIN HYDROLOGIC DATA LAKE WINNEBAGO TWO MONTH PLOT

The US Army Corps of Engineers collects and disseminates this daily water level data for the Fox-Wolf Basin. All data are provisional and are subject to change. Data are calculated from the best available observations at the time of posting. The Average Lake Stage is calculated by averaging US Army Corps of Engineers stage data at Fond du Lac, Menasha, Oshkosh, and Stockbridge. Gates represents the total number of open gates at the Menasha and Neenah Dams. Blanks indicate data that are missing or not yet available.

* The IGLD 1985 relationships in the Lake Winnebago system are currently being updated. Please contact the Chief of Wisconsin Project Office at (920) 380-7102 for more information.
